

OceanLife Volume 2 : Micronesia

The second in this series of CD-ROM based books on marine life, covers the little documented reefs and waters of Micronesia (stretching from Kosrae, west of Hawaii, for over three thousand miles to Palau (southwest of Guam). Created with the assistance of Robert Myers, author of the definitive printed guide to marine life of the region, this double-CD set includes original narrated underwater video and photography. The two CD-set contains video of over 150 species. The CD-ROM also contains video of heretofore undocumented fish behavior on subjects like mating, predation, camouflage, brooding, and nesting. Learn more about Micronesia by exploring the topographical, relief, and political maps of the region.
