

## Work Done for Hire

The Hugo and Nebula Award-winning author of *The Forever War* delivers a riveting near-future science fiction story of the dangers of living in a surveillance state (*The Tech*). Wounded in combat and honorably discharged nine years ago, Jack Daley still suffers nightmares from when he served his country as a sniper, racking up sixteen confirmed kills. Now a struggling author, Jack accepts an offer to write a near-future novel about a serial killer, based on a Hollywood script outline. It's an opportunity to build his writing career and a future with his girlfriend, Kit Majors. But Jack's other talent is also in demand. A package arrives on his doorstep containing a sniper rifle, complete with silencer and ammunition and the first installment of a \$100,000 payment to kill a bad man. The twisted offer is genuine. The people behind it are dangerous. They also prove that they have Jack under surveillance. He can't run. He can't hide. And if he doesn't take the job, Kit will be in the crosshairs instead.
